

Bibbulmun Track WINTER DIVERSION

June 2020 - November 2020

DANGER

DIVERSION

Perkins Beach

The Bibbulmun Track is closed around the Perkins Beach Headland between Cosy corner and Torbay Inlet.

A downloadable map is available below.

This is due to the rocky headland being difficult to cross making it dangerous for walkers during high tides and heavy seas through winter.

The track has been diverted higher along a gravel road verge and 4WD track.

Walkers please use caution when walking along the gravel road verge and 4WD track for on coming track. Walkers ahead and reduce speed signage has been put in place.

The original route will remain closed until declared safe. For your safety stay on the marked diversion and follow all signage.

For more information contact the Parks and Wildlife Service Albany on (08) 9842 4500.
